

2022 CAMP TO BELONG- GEORGIA Impact Report

WHY WAS 2022 SPECIAL?

Throughout the past several years, our organization has created many new events to serve our campers. Through the support of our donors, volunteers, and camper families, we were able to serve our campers at our signature overnight summer camp, as well as day and weekend events this year. We now have a year-round model that allows us to serve and connect our campers in multiple ways!

SPECIAL STORIES FROM 2022

- Some of our sibling sets attended four events throughout the year! Connection and continuity were achieved!
- At our Holiday camp, we were able to serve the children of one family whose separated siblings come from two other families. All siblings stayed together in a cabin and experienced their extended family in a special way!
- One separated sibling met her siblings for the first time at our Holiday camp. Her biological and adoptive siblings also connected, sharing numbers so they can stay in touch after camp. Both sets of parents are working on how they can volunteer at summer camp next year so their children can attend!

We couldn't have done it without your generous *support.*

I loved seeing my sister this weekend

Thank you

to all our donors and volunteers.

My favorite thing was meeting and getting to know other parents who are going through the same thing you are going through.

It is only through the financial and volunteer support that we receive that we are able to hold events for our separated siblings. Thank you for being a part of our mission!!
